## Features and Benefits

### Purchase Control

- With a single account, cards can be assigned to drivers and/or vehicles.
- Purchases can be controlled through an assigned PIN number.
- Limitations on types of purchases made with the card can be restricted at any level.
- Purchases can be limited by product (fuel only or all products), number of transactions per day, and/or dollars per month.

### Exception Monitoring

- Exceptions are identified on the Vehicle, Driver, and Exception reports.
- The Vehicle and Driver Reports allow the customer to track the mile per gallon variances, pattern discrepancies, product variances, excess fuel purchases and various transactions made to the account.
- You have the ability to define your own exceptions.

### Flexible Reporting Options

- Reports can be supplied electronically (EDI), on paper, magnetic media, email or diskette.
- All of the data used to create the reports can be supplied electronically.
- Reports can be broken out to four levels.
- The descriptions and names of the second and third levels are customer-defined (the first level is the customer name and the fourth level is vehicle/driver).
- Reports can be broken out or summarized at any business unit level.
- Customers may select any or all of the available Voyager Reports.
- Reports sent to multiple entities within the customer organization can be any combination of electronic transmission, paper, or magnetic media.

### Tax Exemption

- Voyager can report and calculate various tax exemptions including federal and state levels that are allowed by law.
- Voyager will bill you net of the exempted taxes.
- Data on exempted and non-exempted taxes can be supplied electronically.

### Convenience

- Drivers or vehicles need only one card.
- Voyager accepted at major and regional brands in all 50 states.

### Online Customer Access

- Customers can browse through a variety of data items on their

account: unbilled transactions, month-to-date exceptions, vehicle and driver information, payments and adjustments.

- In addition to working with the Voyager Customer Service Center, the customer may, at his/her option, perform the following functions online: Add drivers/vehicles, Report lost/stolen cards, Issue new/replacement cards, Update driver/vehicle information, Modify PIN identification numbers, Update organizational information (names, descriptions, addresses).

#### Flexible Billing and Payment Options

- **Use ePay to make fast and convenient payments.** Your fleet card payments can be processed online using the FleetCommander Online™ ePay system. ePay provides you a safe, fast and free way to manage your bills online. With ePay, you are assured accurate and timely payments in a matter of seconds at your convenience 24/7.

You may access the ePay system from the Make a Payment link within Fleet Commander Online. Simply have your latest billing statement handy and select your account to get started.

- Reports can be sent to one or more business unit levels within the company.
- Payments received from one or more levels within the company do not have to be the business unit that received the reports.
- Reports and payments can be sent by EDI transmission.
- Payments sent can be a combination of EDI transmissions and checks.
- Voyager can accept ACH payments as well.
